Contact time
is key with our
Hoof-fit
concept

- Always start with individual treatment (Intra Hoof-fit Gel or Intra Repiderma)
- Follow-up with group treatment (Intra Hoof-fit Bath or Spray: Intra Hoof-fit Liquid or Intra Hoof-fit Spray)

If problems increase, start to use Bath or Spray twice a day for two days a week, instead of every two weeks

Repeat this program 2 – 3 times every year, when trimming your animals

Intra Repiderma can be used at all times, when hoof or skin problems are observed
